### Associate Software Engineer

#### Accenture

11/2023 - Present

Bengaluru

##### Achievements/Tasks

- Completed an intensive training program on Java Full stack focusing on Java, Spring Boot, React, and database management.
- Collaborated with cross-functional teams to deliver software solutions aligned with client requirements and industry best practices.
- Implemented features and enhancements in Java-based applications, adhering to project timelines and quality standards.
- Engaged in Agile development processes, participating in sprint planning, daily stand-ups, and code reviews.

### Software Intern

#### Samsung Research Institute

07/2022 - 09/2022

Bengaluru

##### Achievements/Tasks

- Designed and developed user interfaces for a desktop application using PyQt5 and QML, including the creation of several custom widget.
- Reduced bug fixes by 40% through rigorous testing and optimization of widget implementations, leading to a more stable and reliable application

## EDUCATION

### B.Tech in Computer Science

#### Graphic Era University

06/2019 - 06/2023

Dehradun, Uttarakhand

##### Score:

- CGPA 8.82

### Senior Secondary Education (ICSE)

#### Rishikesh Public School

04/2018 - 04/2019

Rishikesh, Uttarakhand

##### Score:

- Scored 94.25%

## SKILLS

Java

JDBC

Spring

Spring Boot

Hibernate

Maven

JPA

Rest API

Web Sockets

git

Javascript

React.js

C++

## ACHIEVEMENTS

Currently ranked Expert on the platform CodeForces, with rating of 1602

Currently ranked Guardian on Leetcode, with rating of 2185.

## PERSONAL PROJECTS

### Smart Health App (10/2022 - 10/2023)

- Built a responsive application that allows users to contact physicians and enables one-to-one chat functionality, along with the sharing of images and documents.
- Develop server-side functionality to manage user interactions, process requests, and handle real-time data. Integrated cloud Storage for efficient media storage and retrieval.
- Integrated a machine learning algorithm to analyze user symptoms in real-time, providing accurate results and enhancing the app's diagnostic capabilities.

### Voyago (01/2024 - 07/2024)

- Developed a web application for sharing travel blogs with secure user authentication, utilizing encrypted password storage and JWTs for both authentication and login persistence.
- Enabled authenticated users to create, like, and comment on posts, including a multi-level comment system that supports comment creation, replies, and pagination.
- Integrated OAuth functionality for seamless user login via third-party providers.
